about yours.

M. M. Meeklenburg, the
well-known optical specialist,
will be at the Royal Hotel,
Stony Plain, on Friday, Nov-
ember 25th. See him and
see well.

Farewell to Mr. Boettcher.

Rev H J Boettcher, so well
and favorably known thruout
the district, is leaving this
week for Edmonton, where he
has accepted the position of
pastor of the English Luth-
eran church.

Mr Boettcher came here
about five years ago, as teach-
er in St Matthew's school,
the duties of which he has
carried on since, in addition
to his pastoral charge at
Peace Church, Spruce Grove.
He had also been conducting
a Saturday school, at the
Grove, for some time past.

His many friends here will
miss him, as he was held in
high esteem, not only by those
of his own church, but by all
with whom he came in con-
tact.

At the meeting of Walther
League member at the St
Matthew Schoolhouse, Sun-
day, Mr Boettcher was given
a farewell send-off by all the
Lutheran young people of the
town and district.

"First Aid."

A dusky lady entered the drug
store and asked for a cent's worth
of insect powder.

"But," objected the clerk, "that
isn't enough to wrap up."

"Man," replied the dark lady,
"I ain't ast you to wrap it up—
just you blow it down—mah back."

Railway Time Table.

Going east—Every morning at
5.43. Mon., Wed., and Sat. at
6.55 a.m.

Going west—Sun., Tue., Friday
at 1.29 p.m. Every midnight at
21.24.

LOCAL NEWS.

Mr Ph. Enders, who grad-
uated last summer from Con-
cordia Seminary, St Louis,
Mo., has taken charge of St
Matthew's school No. 2, in
succession to Mr Boettcher.

Miss Medea Brown of Red
Deer is visiting this week,
with Mrs W J Whelen.

Mr W Hopkins, Holborn,
is residing in Stony at pres-
ent, while under the doctor's
care.

Corporal Moses took charge
on Friday last of the local
detachment of the A. P.
Police. The officer had for-
merly been in charge of the
detachment at Wainwright.

John Kelly has moved to
Edmonton South with his
family. John has secured a
position in a mill there.

His many friends here will
be pleased to hear that Mr
Fritz Willie has recovered
sufficiently from the effects of
his fractured leg to be able to
move about, but he is still in
the hospital.

Tom Fitzpatrick left Sat-
urday by rail, for Styal with
a four horse outfit, where he
intends to work in the woods.

Mr Leon Freisfeld, Edmon-
ton, was a visitor in Stony
on Sunday.

Sergt.-Major Tucker, of the
A.P. Police, gave Stony Plain
a visit on Friday last, and
was struck with the improve-
ments which have been made
here in the last decade. This
gentleman had been on duty
in Stony, a number of years
ago, when a member of the
N.W.M. Police.

At the meeting on Friday
evening of all local hockey
players a mutual understand-
ing was come to between the
Senior and Junior teams. Mr
Michael was elected president
and Clarence Lory secretary.
Good progress is being made
in getting the rink ready for
the players. Mr Jac Baron
will be the janitor for the
skating rink.

Tomorrow, Friday, Novem-
ber 25th, Auctioneer D Brox
is holding a sale for Mrs S
Hrabczuk. On the following
Monday (Nov. 28) Auction-
eer Zucht will hold a sale for
Mr Conrad Spady at Bright
Bank.

Christmas cards and Perso-
nal Greeting cards; all prices
and colors; at the Drug Store.

Stony Plain was well rep-
resented at the U.F.A. dance,
at Holborn hall, on Friday,
Nov. 18. Martin's orchestra
provided the music. The next
event at this hall will be the
U. F. W. A. bazaar and dance,
Dec 9.

On Wednesday, Nov. 16,
to the wife of W R Creath,
a daughter.

If your eyes bother you, or
you suffer from headaches,
why not have your eyes at-
tended to by an expert? M M
Meeklenburg, eye specialist,
will be in Stony Plain on Fri-
day, Nov. 26th.

RED ROSE ORANGE PEKOE is extra good.

Winter Traffic

Now on the city streets should mean to all automobile drivers at least one thing, says a daily newspaper—a driving speed of at least ten miles an hour less than summer speed. And this word of advice to city motorists may well be passed on to motorists on country roads.

Snow is a tricky surface. It provides good traction on paved streets and hard roads when a car is forging ahead, but no traction at all when the brakes are suddenly applied. In other words, a car can be driven easily on it, but can be stopped only with difficulty.

It is disconcerting to drive up to a street or road intersection at what in the summer months would be a moderate speed, and finding need of applying the brakes, feel the car sliding helplessly onward, or suddenly skidding to the side. It is disconcerting always, and it is frequently dangerous as well.

Experienced and careful drivers have various means of checking this sliding and swaying, but they know there is only one sure method, one real safety device—to drive slowly and particularly so when near road intersections, curves, culverts, bridges, passing other cars, etc. Only so can a car on slippery roads be kept sufficiently under control for safety.

Pedestrians, too, should take warning. The practice of standing on the road just a foot or so away while a motor passes is dangerous enough on dry roads. It is doubly dangerous after the snow comes. If the driver has need to apply his brakes suddenly the car will come out of ten feet away to the left or the right, and the pedestrian standing too close is likely to be side-swiped with unpleasant results.

Winter conditions should, in brief, intensify care in driving and walking. There is much greater liability to accident with snow on the ground.

Cold weather brings another danger which is not so much in evidence in summer. In cold weather motorists are tempted to start up their engines and allow them to run for a time to warm up within the closed doors of the garage. As a natural result the garage fills up with the deadly monoxide gas from the exhaust with all the possibilities for tragedy which such a condition brings about.

Another factor, which necessitates greater care in winter driving is created by the fact that touring cars have all their windows up while the windows of closed cars are kept shut. It is not possible, therefore, to signal with the same ease and effectiveness; to other cars to the rear regarding the turn a driver may intend to make. In the winter, therefore, greater attention should be paid to the rear than is necessary during the summer months if accidents are to be avoided.

They were discussing physical research, spiritualism, haunted houses, etc. "Do you believe that ghosts walk?" asked one ardent soul of an old gentleman. "Of course, I do," he replied. "There's abundant proof of the fact—haven't you ever heard the 'Dead March'?"

Are You Nervous? Sleepless?

St. Catharines, Ont.—"I was in such a nervous and rundown state of health that I could hardly get around to do my work. I could not sleep and the least noise or excitement would completely upset me and throw me into a nervous spell. I was advised to take Dr. Pierce's Favorite Prescription and I was soon well and strong and have never had another spell of nervousness since."

"I always keep a bottle of Dr. Pierce's Pleasant Pellets in my medicine chest; they are the only medicine I have ever taken that would regulate the liver and relieve constipation without causing distress."—Mrs. Ada Taylor, 46 Wiley St. Send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., if you desire a trial pkg. Favorite Prescription tablets.

DYEING AND TINTING

are so easy and perfect if you use the same kind of dyes. Professional Dyers use. Dyes that are put up in highly concentrated, easily powdered, soluble form. No work to dissolve them. Never any shaving, scraping or crumbling them up. They act—

Ancient Shell Fish Heaps On The Pacific Coast Date Back To Before Columbus

What is a kitchen midden, reference to which have been in newspaper despatches recently? It sounds as if it might possibly be a particularly efficient form of apron or overalls, or possibly even a labor saving device or electrical fixture. It is none of these things. A kitchen midden, says the "Natural Resources Intelligence Service" of the Department of the Interior at Ottawa, is a prehistoric refuse heap, made up chiefly of shells and bones, much akin to our modern garbage dumps. They are the delightful hunting grounds for archaeologists seeking evidence on the living customs of other days and no doubt the attention of another civilization will be examining with eagerness the queer shaped bottles, tins and bed rails of a bygone (1927) Canadian city garbage dump.

The excavation of the kitchen midden being carried on near Seal Cove in the northern end of Prince Rupert, B.C., is one of the most interesting pieces of archaeological work attempted in Canada in some years. According to Harlan I. Smith, Dominion Archaeologist, there must have been a considerable settlement of Indians at Prince Rupert before the time of Columbus, as is plainly evident from the fact that a huge red cedar stump stood on top of the refuse heap or kitchen midden as the debris from Indian occupation is known. A preliminary count shows over 250,000 pieces of annular growth without including heart rot or closely crowded outer rings. How long the cedar fell is not known but it is evident that the heap of debris must have accumulated before the year 1500. It was probably many years in the making and perhaps many more years elapsed before the cedar took root.

Quite a number of kitchen middens have been located along the British Columbia coast, four of which lie within as many miles of Prince Rupert while others are found within the city limits of Vancouver and Victoria. The white man's cities have arisen on the site of the ancient red man's habitations. Whereas the European migrant was attracted primarily by anchorage for his vessels, the Indian was concerned with his food supply and made his abode at the mouth of freshwater streams near ocean beaches where shell fish are abundant.

The kitchen middens were built up of refuse from the aboriginal villages, refuse which consists almost entirely of clam, mussel and other shells, with here and there a human skeleton. Typical heaps measure several hundred yards long by five or six feet high, a few extend for miles, and several attain a height of more than nine feet. What enormous quantities of clams and other shell fish these early inhabitants of Canada must have eaten and for what centuries has the coast line been productive of these nutritious foods? Perhaps there is no other food so easily won from Mother Earth. The white man took up the digging where the Indian left off and the same sands which provided succor for the aborigine are still highly productive. It is just recently, however, that the full value of these shell fish foods has been appreciated and the clams, quahaugs (hard clams), crabs and shrimps are esteemed items of food which are recognized to be rich in protein, vitamins and mineral salts which fortify the human system against disease.

The Dominion Archaeologist is doing much to discover the history of the early dwellers in Canada, their habits, culture and manner of living. Not the least interesting is his investigations of these old shell heaps, and he reports that the present work furnishes the best opportunity for real exploration by excavation he has had since 1914, particularly because the old cedar tree with its annular rings gives fairly definite information as to the antiquity of these evidences of coast habitation by the aborigines.

Customer: "How much are your \$1.00 shoes?"
Clerk: "Two dollars a foot."

When vegetables get wilted, try putting the juice of a lemon in the cold water you freshen them in.

B.C. Pedigreed Poultry

Another Order Received From Japanese Government By Poultry Breeders' Association

So well satisfied is the Japanese government with the pedigreed poultry supplied by the R.O.P. Poultry Breeders' Association of British Columbia that its agent on this continent has cabled Secretary E. A. Lloyd another order, which will run into several hundred dollars. It is for six White Leghorn cockerels and twenty-four pullets of the same breed, all to be the progeny of hens with official records of 300 eggs or over.

F. A. Sansome, of Greenwich, Connecticut, recently purchased from the poultry department of the University of British Columbia, a White Leghorn hen for \$500. This expensive hen, registered as F219, is, however, a money maker when it comes to egg laying. Last year she laid 235 eggs in 265 days. She was one of the attractions at the World's Poultry Congress, held in Ottawa this summer. The hen's champion egg layer "Maize," as she is popularly known, is also a member of the University of British Columbia flock. Her record is 253 eggs in 265 days.

A Smart Flared Skirt

Every important couturier features the flared skirt this season, and the one pictured here is suitable for wearing with an over-bustle or sweater. The attached under-bodice has darts at each side of the front, and the top may be made shaped, or straight with shoulder straps. No. 1679 is for misses and ladies, and is in sizes 16, 18 years; 38; 40, 42 and 44 inches bust. Size 38 requires 1 1/2 yards 39-inch, or 1 1/4 yards 64-inch material for the skirt, and 1 1/4 yards 36-inch material for shaped top, or 1 yard for straight top. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

British Columbia Minerals

"I have the greatest faith in the numerous discoveries of economic minerals in British Columbia. This Province seems to have the largest assortment of minerals of any of the provinces, and its varying climate and frequency of outcrops of bed rock render it a very favorable field."—Albert E. Klison, director of the geological survey of the Gold Coast Colony.

Saskatchewan Corn Growers

P. C. Colquhoun Is Elected Head Of Organization

P. C. Colquhoun, Maple Creek, the new corn king, was unanimously elected president of the Saskatchewan Corn Growers' Association at the annual meeting, when the fifth annual corn show was brought to a close at Maple Creek. It was decided to hold the 1928 corn show in Weyburn, Wednesday and Thursday of the third week in November. Invitations were received from Regina and Moose Jaw.

Other officers elected at the meeting were: First vice-president, G. D. Mathews; Indian Head; second vice-president, August Peterson, Weyburn.

Executive directors, D. E. See, Ben Harrison, Ed. Meredith, A. Monteith, and H. Thacker, all of Weyburn.

Directors: R. P. Robbins, Shaunavon; George Spence, Regina; J. G. Taggart, Swift Current; E. Siberer, Piapot; Prof. Manley Champlin, University of Saskatchewan; M. P. Tullis, Regina; J. G. Rayner, University of Saskatchewan; T. A. Torrance, Estevan; J. M. Rodgers, Gull Lake; Chas. Marks, Midsay; G. H. Hoffman, Maple Creek; E. Waddington, Regina; Dr. Dason, Maple Creek; A. J. Colquhoun, Maple Creek; Dr. S. E. Clarke, Swift Current; J. C. Noble, Regina; P. P. Trowell, Saltcoats; A. Cleophas, Estevan.

Preliminary steps towards the organization of the seed corn industry in Saskatchewan on a commercial basis with the establishment of a drying plant were taken at the meeting.

Hewitt—"Who is that man?"
Jewitt—"He is our village cut-up."
Hewitt—"He doesn't look funny."
Jewitt—"He isn't funny at all; he is the only surgeon in the place."

C.P.R. Plans Two New Musical Festivals

Scene during the Piping Contest—Banff Springs Hotel in the background.
Last—Harold E. Key, appointed musical director of the C.P.R.

So great was the interest in the French-Canadian Folk Song Festival at Quebec and in the Scottish Music Festival and Highland Gathering at Banff, that the Canadian Pacific has decided to repeat both these Festivals next year, with the prospect of establishing them as annual gatherings. The Folk music competition announced for next year's Festival at Quebec has resulted in requests from composers all over the world for particulars, with the result that French-Canadian melodies are being studied by a great number of composers.

As a further evidence of its desire to promote an interest in folk songs and its associated music, the Canadian Pacific has decided to organize two additional Festivals for 1928. One of these will be a New Canadian and Handicraft Festival at Winnipeg, in which immigrant races from northern Europe will be invited to demonstrate the national music of the countries from which they came to western Canada and to display specimens of the handicrafts at which they are so skilled. The summer solstice is associated with folk-festivals of nearly

Report Russia Will Participate In Peace Parley Is Welcome News To Other Nations

Bar-U Ranch Sold

Valuable Property Has Been Purchased By P. Burns

The famous Bar-U ranch, one of the most prominent ranching institutions in the west, has changed hands. Hon. A. J. McLean, executor of the George Lane estate, negotiated the sale with P. Burns, of Calgary, and the approximate amount involved will be in the neighborhood of \$750,000. The headquarters of the ranch are at Pelisko, west of High River, and near the location of the holdings of His Royal Highness, the Prince of Wales.

The property includes 36,000 acres of decided land and between 65,000 and 60,000 acres of leased land, according to Mr. Burns. The actual count of the stock has not been conducted but it has been estimated that there are about 6,000 head of cattle and 500 head of horses.

When interviewed by the Calgary Herald, Mr. Burns did not reveal his intention with regard to the disposal of the land and he gave no confirmation to the rumor that some of it would be sold to prominent Englishmen who are apparently eager to acquire holdings in Alberta in the vicinity of the E.P. ranch.

No real hustler would give two cents for the things that come to those who wait.

Some lawyers receive a larger fee for keeping quiet than others do for talking.

The strongest glimmering of common sense that has come out of Russia for a long time is contained in the message from Moscow that the Soviet Government will participate in the preliminary discussions to a disarmament conference under the auspices of the League of Nations.

Since the end of the world war Russia has kept more men under arms than any other nation.

There were several reasons for this, but the principal reason was that the Soviet imposed such decrees upon the people that a big armed force was necessary to awe the moujiks into a state of passive submission.

Of course, the Soviet didn't let the peasants think that was the idea at all. The leaders constantly talked about aggressive forces against the Union of Soviet State Republics among other nations, foremost, they said, principally by Great Britain, so that it was necessary to maintain a big standing army for the safety of the country.

Russia has been talking fight for years, when there wasn't a race on the face of the globe that wanted to have anything to do with it.

Another reason for the big army as that it could be used to menace India, and it may have been hoped thereby to coerce Great Britain into doing the things Russia wanted her to do.

As time has passed and the Soviet realizes that their little game isn't working out as they had figured, they are coming to the conclusion that the big army is a burden that cannot be kept up much longer by hoodwinking the people as to the necessity for its existence.

And so, the presence of Russia at the next disarmament parley will give the Soviet an opportunity to make a magnificent gesture of peace ideals by offering to cut down an army they don't really want. It gives them an opportunity to step down without loss of credit.

Be the motive what it may, however, the advent of Russia at a disarmament conference is welcome for itself alone. It will remove the fears of other nations in Europe which have not quite liked the length of the bear's claws.

Search For Valuable Mummy

Body Of Ancient Queen Disappeared

Search through the museums of the world for the mummy of Pawa Hoot, an Amazon with bobbed red hair, whom archaeologists believe ruled the cave land civilization of Kentucky thousands of years ago has begun.

The perfectly preserved body of the ancient queen, wrapped in deerskins and buried with regal splendor, was unearthed in mammoth cave in 1812. Until 1850 the mummy was exhibited in mammoth cave, but at that time it disappeared.

James Lane Allen, the author, was asked by a lady if he was a bachelor for choice.

"Yes," he said at once.
"But isn't it rather ungentlemanly of you to say that," said the lady.
"You must ask the ladies that," said Allen. "It was their choice."

Economy is the fine art of doing without something without your neighbors suspecting it.

"After committing the crime you cut up the body!"
"Yes. To get rid of it! What would you have done with it?"—Ray Blas, Paris.

Theatre Will Check Autos
 Novel Experiment Is Planned For London In The Spring
 If an experiment which will be tried by a Piccadilly Theatre when it opens next spring is successful, London theatre goers who arrive in their own automobiles will be able to check at the door.
 A new five-story garage with space for 5,000 cars is under construction near the theatre. It will be equipped with express elevators so as to expedite the handling of the cars. Reservations for the machines will be made when seats are purchased.

For all pains—Minard's Liniment.
 It's a pretty safe plan to judge a man by the people he doesn't keep company with.

The BABY

No mother in this enlightened age would give her baby something else she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and end almost any little ill. Febrile fever and fever, too, it seems no time until everything is serene.
 That's the beauty of Castoria: Its gentle influence seems just what is needed. It does all that castor oil might accomplish, without shock to the system. Without the evil taste. It's delicious! Being purely vegetable, you can give it as often as there's a sign of colic: constipation, diarrhea, or need to aid sound, natural sleep.
 Just one warning: It is genuine Fitcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs, but no child of this writer's is going to test them! Besides, the book on care and feeding of babies that comes with Fitcher's Castoria is worth its weight in gold.

Children Cry for
Fitcher's CASTORIA

Alberta Steers For Chicago

Price Received Sets a New Figure For This Season
 Forty-one head of Alberta grass-finished steers shipped to Chicago last month set a new figure on that market this season for this class of cattle. These steers sold at \$14.65 per hundred pounds, exceeding the previous high price by 45 cents. Good prices on the American markets have attracted large shipments of cattle from the western provinces during the past few months.

Flared Skirts Are Shown On Many Of The Newest Frocks

This charming one-piece frock, having the appearance of the two-piece, would be smart if fashioned of either satin or soft woolen material. The modish flared skirt is joined to the bodice having a scalloped left side opening. The neck may be cut low and simply bound or made high and finished with a round collar. The long dart-fitted sleeves have hand cuffs, and a belt causes a slight blousing. No. 1685 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 3 1/2 yards 28-inch, or 2 1/4 yards 44-inch material. Price 20 cents the pattern.
 Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

SUNDAY SCHOOL LESSON

NOVEMBER 27

ISAIAH TEACHES TRUE WORSHIP

Golden Text: "Who shall ascend into the hill of Jehovah? And who shall stand in His Holy place? He that hath clean hands, and a pure heart."
 —Psalm 24:3, 4.

Lesson: Isaiah 1:1-20.
Devotional Reading: John 4:21-24.

Explanations and Comments

I. The Perverseness of God's People, verses 1-3.—"The Great Arrangement" is an apt phrase given to this chapter by Ewald. God's chosen people have rebelled against Him. Even the dumb animals, the ox and the ass, are responsive to their masters, but the people of Judah do not consider "Lord." This perverseness has brought punishment upon them, and it is only because of Jehovah's mercy that they have escaped the fate of the people of Sodom and Gomorrah.

II. Outward Signs of Religious Zeal Do Not Deceive Jehovah, verses 10-15.—The prophet now bears in spirit the remembrance of his audience, Delitzsch thinks. "They would vainly represent the accusations which he had just uttered as unfounded, by appealing to their exact observance of the divine law, but in opposition to this ground of self-justification which the prophet has read out of the hearts of those iniquitous, he proceeds to prove the divine arraignment which begins in verse ten."

"Hear the word of Jehovah, ye rulers of Sodom," the prophet cries, "give ear unto the law of our God, ye people of Gomorrah." By addressing them as "rulers of Sodom" and "people of Gomorrah," he reminds them alike of their wickedness and of their danger. The "law" to which he bids them give heed, is the inspired discourse he is about to deliver.

In honor of Benjamin Franklin, a tablet has been erected at Auray, France, to mark the spot where the distinguished citizen of their country landed for one of his brief visits to that country.

Minard's Liniment for Distemper.

Chocolate is made from the large seeds contained in the beans of the cacao tree, not the cocoa tree as spelled in Dr. Samuel Johnson's dictionary.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgment there when these powders are in operation. Nothing could be more thorough or desirable than their action.

Lawyer: "Why do you want a separation from your wife? Aren't your relations pleasant?"
 "Tired Business Man: "Mine are, but hers are perfectly horrid."

As a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

The first attempt to reach the North Pole by air was made by Salomon August Andree, a Swedish scientist, on July 11, 1897. With two companions he left Spitzbergen in a balloon and was never heard from again.

Charleston Dance Contest
 Judged By England's Leader
 Miss Leslie—Sutton, chief judge of the Charleston contest for England, writes: "My unique position in the dancing world today would never have happened if I had not taken care of my health. I constantly had that tired out, depressed feeling, with sick headache, indigestion, biliousness caused by the poisons of constipation.
 Your mild laxative has been of valuable assistance in keeping my system in a daily healthy condition."

ALL-CANADIAN PRODUCE DINNER HELD AT OTTAWA

Toronto. — Sixty years of agricultural development in the Dominion of Canada were fittingly celebrated by representatives of the country's basic industry at an all-Canadian produce dinner given by Hon. W. R. Motherwell, Minister of Agriculture, on the opening day of the Royal Winter Fair. The gathering was honoured by the presence of His Excellency the Governor-General and in addition to the Ministers of Agriculture from many of the provinces, many leaders in the public life of the country were seated at the head table.

Addressed by Lord Willington, the Federal Minister of Agriculture, and the ministers from the various provinces reflected the spirit of optimism which prevails throughout the country, the great strides which have been made along agricultural lines since Confederation and the prospects for even greater progress in the future.

Following the greeting of the Governor-General, Hon. Mr. Motherwell recalled the advances made in the industry, laying particular stress upon legislation designed to improve agricultural conditions, and he was followed by Hon. J. C. Elliott, Minister of Public Works, Hon. J. S. Martin, Ontario; J. Desautels, Quebec; Hon. J. A. Walker, Nova Scotia; Hon. L. Smith, New Brunswick; Hon. A. Prefontaine, Manitoba; Dr. Warnock, British Columbia; Hon. W. M. Lea, Prince Edward Island; J. J. Robertson, Saskatchewan and Hon. George Hoadley, Alberta.

The gathering concluded on a note of caution by the Alberta minister who, while endorsing the optimistic remarks of the various speakers appealed for earnest consideration of the immigration problem. He declared that because of the great industry which had been built up the question as to further settlement and development should be gone into carefully.

"Who are we going to ask into Canada to develop all these things—anybody?" queried Mr. Hoadley. "Our duty is clearly to give some thought to the people who are to be brought into the country."

Will Support Commission

United States Decides To Co-Operate On Disarmament Question
Geneva.—The United States has officially decided to continue its co-operation with the special disarmament commission created by the League of Nations for the preparation of a general conference on reduction in world armaments.

Washington notified the League that Hugh R. Wilson, United States minister to Switzerland, has been appointed American representative on the commission which meets at Geneva, November 26, to continue work on the preparation of a draft treaty.

Gives Figures To Government

London.—Sir Arthur Steel-Maitland, Minister of Labor, replying in the House of Commons to a question said in the past 12 months 52 men had applied at Labor exchanges in Liverpool and district for settlement in Canada. Ten of these, he said, had withdrawn their applications and 16 were not acceptable by the Dominion authorities.

Gigantic Airplane Carrier

Camden, N.J.—The United States navy's newest and largest airplane carrier, the Saratoga, has gone into commission. Capable of making 23 knots, with its electrically driven propeller, the man-of-war 35,000-ton ship, is also said to be the fastest large boat afloat. It is to be equipped with 85 airplanes and when completed will be assigned to the Pacific fleet.

Mexico Bans Food Exports

Mexico City.—For the purpose of conserving domestic food supplies, the government has prepared an order forbidding the exportation from Mexico of "articles of necessary consumption." These include corn, wheat, beans, peas, potatoes, salt, butter and sugar. Coal may also be included later.

W. N. U. 1798

"Britain's Waning Prestige"

New York Editor Speaks Of Alliance With United States

Chicago.—Great Britain is trying to avert the disintegration of the Empire upon which "the sun never sets" by formation of a union with the United States, Charles Edward Russell, New York editor and lecturer, declared at the trial of William McAndrew, suspended superintendent of schools.

Russell, who was commissioner on public information to England during the world war, was called to substantiate charges of Mayor William Hale Thompson that British propaganda had entered schools of the United States in history texts.

Since the world war, British dominions have drawn away from the mother country and the British foreign markets have been narrowed, Russell testified. A waning prestige in world affairs would be restored through an alliance with the United States, he contended.

Should London propaganda be successful in the United States and an English-speaking union result, a war between Britain and the United States on one side, and France, Spain, Italy, Poland, Mexico and South America on the other would be inevitable, Russell predicted.

Drastic Changes In Manitoba Liquor Law

Will Be Submitted By Provincial Government When Legislature Assembles

Winnipeg.—It is determined at present to eliminate the bootleg liquor trade from the province, the Manitoba Government has prepared drastic changes in the provincial liquor laws, according to reports emanating from the parliament buildings. It is reported that not only will the sale of beer by the glass be instituted, as the electors demanded in the plebiscite of last June, but the government will provide for the sale of hard liquor through cash and carry system.

The Manitoba Free Press says: "Sweeping changes in the liquor laws of the province are made in the legislation which the provincial government will submit when the legislature assembles early next month. 'All existing liquor legislation is repealed and the new law will, according to unofficial but reliable reports, provide not only for the sale of beer by the glass, but for the sale of hard liquor by the bottle, or the cash and carry system.'"

Pays Death Duties

London.—Right Hon. Winston Churchill, chancellor of the exchequer, announced in the House of Commons that Lady Houston, widow of Sir Robert Houston, had paid to the government \$750,000 as an "act of grace," despite the fact that the wealthy shipbuilder before his death moved to Jersey Island, presumably to avoid the high British death duties.

A More Unified Canada

Toronto.—Despite the attractiveness added to farm life by modern conveniences, Canada's youth will not stay on the land until agriculture is put on the same footing as industry, declared Premier J. E. Brownlie, Alberta, speaking here. He also stressed the interdependence of the provinces, in urging a more unified Canada.

Fined For Cruelty

Ottawa.—Carrying live hens with their heads downward causes the birds unnecessary suffering, Magistrate Hopewell held in the police court here. He fined two women who persisted in carrying their fowl in that manner after they were warned by the Humane Society inspector.

Prince Is Popular

London.—The second unruly demonstration by admirers of the Prince of Wales within a few days occurred recently when 5,000 women and rappers, who had gathered to watch the Prince emerge from a moving picture show rushed his automobile.

Change Design Of British Coins

London.—On December 1, for the first time since 1816, a simultaneous change in the designs of all British silver coinage will be effective. Gold and copper coinage will not be affected. The alterations are all on the obverse side.

Figures In British Finance

E. R. Peacock, M.A., of London, England, former Canadian, son of a Glasgow miller, and once on the staff of Queens University, Kingston, who is now a dominant figure in British finance. He is at present in Canada and calls the Dominion the country of the future.

To Represent Canada

Senator Dandurand Will Leave For Geneva Within Few Days

Ottawa.—Hon. Raoul Dandurand, government leader in the Senate, was appointed Canada's representative at the next session of the League of Nations Council, Premier King announced at a meeting of the privy council. The prime minister declared that Senator Dandurand would leave for Geneva within the next day or two to be present at the forthcoming council meeting.

Senator Dandurand represented Canada when this country was elected to the council of the league this year. The prime minister pointed out that the appointment was not permanent.

Eight Fighting Planes

Canadian Government Purchases Machines For Military Training

Ottawa.—The Canadian Government will receive eight fighting aeroplanes during the next month to be sent to Camp Borden. On planes used in present day military training are divided into three classes—initial training planes, advanced training planes, and service planes. Of the first two classes there are already a number at Camp Borden, but not actual fighting machines, so the final course of a military airman could not be completed there. The new planes will complete the cycle of training.

C.P.R. Handles Record Amount of Grain

During the same week the peak of the grain rush was reached and the bulk of the great crop of 1927 hauled to elevators ready for shipment. This period saw 25,331,000 bushels of grain marketed over Canadian Pacific lines.

This exceeds by several million bushels the total grain production of western Canada in the year 1887.

As a result of the heavy marketing the grain loadings reported by this railway reached a record figure. For the same period last year 12,552 cars

Electric Accumulator Is Latest Invention

Device May Revolutionize Every Form Of Transportation

London.—An electric accumulator, stated to be powerful enough to drive an express train over a long distance on any existing track without a third rail or overhead wires, is being tested in London, says the Daily Express.

The accumulator, or storage battery, is the invention of a Spanish Jesuit priest, Father Almolda, of Salamanca, who is backed by a group of prominent British financiers. The device can also be used on automobiles, the paper said, which forebushes the possibility of its revolutionizing every form of transportation.

A company has been formed to develop the invention but its directors have refrained from advancing claims for it until its success is demonstrated.

Winners At Royal Show

Grain From Saskatchewan and Manitoba Given Prizes At Winter Fair

Toronto.—A sample of the new variety of wheat, known as Reward, exhibited by William Pierce of Hiram, Minn., first in the spring wheat (except durum), competition at the Royal Winter Fair. Some 20 samples were entered in the class.

Second and third places also went to Western exhibitors, Joseph Hames, of Orkney, Sask., taking the second ribbon, with his exhibit of Marquis wheat, while George S. Canfield, of Wildrose, Sask., won third place, also on Marquis.

In the durum wheat class William Darnbassie, of Laura, Sask., took first place, while his son won second prize, and J. W. McChile, of Marquis, Sask., was awarded third.

All fall wheat prizes went to Ontario exhibitors.

Name Stations On H.B. Line

Request Made To Name Stations After Men Who Boosted the Road

Saskatoon.—Commissioner J. H. Holmes, of the local Board of Trade sent the following telegram to Hon. C. A. Dunning, minister of railways:

"Ottawa press dispatch, fourteenth instant, states names of stations on Hudson's Bay Railway are now being decided upon. In that connection we courteously express the hope that justice will be done to Saskatchewan men identified for over 40 years with the project, and concerning whom unanimous public opinion concedes the rendering of essential service in (furtherance of) opening the Hudson Bay route. Please acknowledge receipt."

BRITAIN DECIDES ON REDUCTION OF NAVAL PROGRAM

London.—Although provision was made in current naval estimates for laying down three new British cruisers this fiscal year, only one will actually be laid down, Right Hon. W. C. Bridgeman, first lord of the admiralty, told a questioner in the House of Commons.

Mr. Bridgeman said the Government had decided that in view of the situation disclosed at the recent Geneva tripartite naval disarmament conference it was not necessary to proceed with laying down the other two vessels this year.

Commenting on the statement The Westminster Gazette's political correspondent says:

"The Government at last has bowed to the storm of protest from the country on the excessive naval expenditure and the need for further disarmament measures. Whether, however, Mr. Bridgeman's statement is a concession in form or one of substance cannot be determined until next year's shipbuilding program is presented to Parliament."

Twenty-Five Nations Enter Olympic Games

Hockey Players From Canada Will Participate In Winter Sports

Geneva.—Twenty-five nations have announced their intention to date of participating in the second Olympic winter games in February, 1928, at the famous Swiss winter sports resort of St. Moritz.

Preparations under way as well as the entries that have been made indicate the games will exceed in interest from very point of view the first Olympic winter contests that were held in 1924 at Chamonix.

The official program which will cover a period of a little more than one week, from February 11 to 19, includes individual contests, team contests and demonstrations. These cover skating, skiing, hockey and bob-sledding, besides demonstrations of "sailjoring" or sailing behind horses.

The hockey contests will have representatives of the best ice teams of the world, including those of Norway, Sweden, Poland, Czechoslovakia, Canada and many others.

Horses For Chicago Show

Western Canada Breeders To Have Entries In Livestock Exhibition

Chicago.—The horse breeders of Western Canada, long renowned for their success in the production of high grade draft animals, will come to the international livestock exposition here this week, vowing to win a large share of the ribbons in the draft horse division.

Particularly in the Clydesdale class are they expected to make a strong showing.

Many of the familiar names among the Canadian breeders are absent from this year's entry list in the Clydesdale class, Haggerty and Black, breeders of last year's grand champion, are not entered, nor is J. H. Pearce, who bred the reserve champion. However there will be a heavy entry from other Western Canadian breeders.

Man With Longest Beard Dead

Washington, D.C.—Hans Langguth, 82, Richland County farmer, famous for his 17 foot beard, is dead. For years after letting his beard so uncut from July 14, 1875, he travelled around the world with a circus without meeting a match for his beard, which he could wrap around his neck like a long 1927 meter. In 1922 he won the world's longest beard championship at the days of '49 celebration in Sacramento.

Died Vols In Ireland

Dublin, Ireland.—The Northern Ireland legislature, by a vote of 25 to 14, has rejected Joseph Devlin's bill giving women the right of franchise at 21. The same as men. Premier Lord Craigavon said that when the Government later introduces its bill to abolish proportional representation it hoped to embody it in a provision for the enfranchisement of women at 21. If the British parliament did the same

View of Grain Cars at the Transcona Yard, Winnipeg, 2, Loading Grain Freight at Port William.

were loaded as compared with 8,370 cars for the corresponding period of last year.

Despite the exceptionally heavy movement of grain, operations at the Transcona yards in Winnipeg, where grain activities centre, have gone along without a hitch. This was made possible by months of preparation for the expected rush.

The Psychology of Color on a World Cruise

CHERRY BLOSSOM TIME, JAPAN

ALGERS' RUE MERCHANT

Colors that run rampant in the four
corners of the world provide the
contrast that make a lasting im-
pression on the memory of the world
traveller. Districts wholly different
in their colorful ensemble are but a
few miles apart and the keynote of
their striking contrast is color. Today
we hear much about color psychology,
its effect on the senses of people and
of animals; and how it affects tem-
perament and even health.

Colors of the scattered ports of the
world that burst from quaint bazaars
and the cottages of the inhabitants
on the streets, vie with those of
nature. The landscapes and seas
differ; colors in architecture, and the
colors of princes, peasant and paupers,
gladden the eye and make the blood
run riot in unison.

From New York on December 2 the
Canadian Pacific steamship Empress

of Australia, will commence another
cruise to the contrasting ports of the
world. This vessel will make an
entire circuit of the globe anchoring in
56 ports and visiting 11 different
countries, covering during the four-
months cruise approximately 25,400
miles.

Funchal the Capital of Madeira,
and the first port of call is radiant
with gaily colored houses and gardens.
Costumes here are likewise brilliant.
Naples with the wonderful blue of its
sea and sky, with Mount Vesuvius
at one side and the islands of Capri,
Ischia and Procida in the distance,
affords a vision of loveliness.

Japan in cherry blossom time is a
fairland of color and sunshine, and
Fujiyama towers above the masses of
bloom, its white summit contrasted
against the blue sky. New Year's eve
in Cairo is most festive and here

colors run riot. The bazaars, the
palaces and bright hued mosques
with their numerous minarets and
domes are color schemes of rare
beauty. Each of the countries offers
an ever-changing vista of color and
strikes vividly into the memory,
causing the traveller to become in-
terested, consciously or not, in color
psychology.

One of the features of the world
cruises of the Empress of Australia, is
the way detail worries have been
taken out of the hands of the members
of the cruise party. From start to
finish the ship is their home. Worries
in connection with foreign money
customs regulations and language are
a thing unknown to the passenger, as
these details have been worked out
months ahead and handed until by
the cruise managers on board.

LESSON No. 17

Question: Why is emulsified cod-liver oil so efficient a food for young children?

Answer: Rickets or weak bones are evidences of lime-deficiency. Emulsified-vitamin-rich-cod-liver oil helps Nature supply this deficiency.

Pure, pleasantly flavored, nothing quite surpasses

SCOTT'S EMULSION

PAINTED FIRES

BY NELLIE L. MCCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER XII.—Continued

Three mines were in operation now, all owned by the same company and all subject to the same conditions. Every one in the valley felt that his stay was but temporary; so no one called it home.

Facing the station stood the Boarding House, where the single men had their meals, a great weather-beaten building, square as a box, and old and starting. The front of it bore a sign, printed in black letters on a white board:

"Elite Boarding House,
M. McMann, Prop."

M. McMann knew that Eagle Mine could never be her abiding city. Indeed, she had no hesitation in declaring that Canada would lose her just as soon as she made her pile. She would "go back to God's country," which in this case meant Lincoln, Nebraska. Mrs. McMann had often wondered audibly why she had left. Certainly it was not for lack of friends. No woman ever had more friends, and though absent from them now she was not forgotten. To the boarders she gave verbatim extracts of letters she received. Her friends were very insistent for her return. "Why in the world do you bury yourself alive in that cold country, where they have only three seasons, July, Autumn and Winter—a woman like you, who can make her way any place?" or "Everybody is asking me when are you coming back—and so you would get a royal welcome."

Some of the boarders rather unctuously urged her to go and never mind

Radio Reduces Cable Receipts

Wireless Generally Has Cut Finances Of Pacific System

A disturbing report with regard to the financial results of the Pacific cable, the Canadian Press learns, will be presented shortly to the governments concerned—those of Great Britain, Canada, Australia and New Zealand.

The use of Empire radio system and wireless generally has resulted in causing a reduction in the Pacific Cable Board's receipts at the rate of \$250,000 (\$475,000) annually. It is said, and this will not represent the peak of the board's loss.

The Pacific Cable Board is apprehensive that the Dominion station at Montreal, which will be completed shortly, will result in increased competition and will affect unfavorably the present cable traffic from the U.S.

The receipts of the Pacific Cable Board for the current year may meet the expenditures, but it seems inevitable that future years will show a loss.

Of the millions of packages of Red Rose Tea sold, few, if any, are returned as unsatisfactory. That's because Red Rose is packed only in Aluminum. There is never any loss of flavor through dampness. Never any staleness or deterioration. The bright, clean aluminum container keeps Red Rose as fresh and flavorful as the day it was packed.

I cannot let my little little do that you work too hard as it is! So you see, never having to do it, I cannot begin now!"

Young Mr. Doran assured her he was quite accustomed to looking after himself, and having finished his meal, he made a neat pile of his dishes, carried them to the kitchen, set on a pot of water to boil, and declared that Mr. McMann had nothing on him in being handy around the house.

Mrs. McMann had picked the young man for an agitator by a simple process of reasoning. Why should a smart looking young fellow, who speaks well and has white hands, come to a coal mine, even if he had a job at the pit head? It did not look reasonable. One explanation presented itself—he had come to make trouble. Well, the mine boss would not be able to say that she had not told him, for it was her intention to sound the warning note without delay.

But when the next morning this young man carried out a whole tray of dishes, piling them neatly on the table, she decided it was quite unlikely that he had any malicious intent. There couldn't be much wrong with a young man who carried dishes and sang "The Spanish Cavalier." It took her lunch back to Lincoln. Why, my land! she had sung it once herself at a school concert, and Lin White, both of them dressed alike in very dry dresses of that swell color called ruddy core.

Indeed, it was not many days before Mrs. McMann had decided that Jack Doran was by far the nicest boarder she had ever had. Some people acquire popularity by giving the right word; Jack Doran had won the lady's heart by judicious and interested listening. He really listened. When she gave him bulletins of a more or less intimate nature on the state of her health, he listened. When she told him what she dreamed of when under the anesthetic, he even asked questions. And he did not retaliate by telling her a word about himself.

Young Mr. Doran was deeply impressed when Mrs. McMann hinted at some dark and mysterious disease bravely borne: "I am dying on my feet," she had told him the second day he was there. "But no one will know it till I am gone. It's my way. It's the proud way here. I was a Westerner in inches. If you like, I will never complain. Poor Mr. McMann of ten remarked on it. 'Girl, you're a wonder,' he often said—he was a great hand to call me 'girl'—he said I was always just a girl to you."

"But see here, Mrs. McMann," protested Jack, in real concern, "why don't you get help here? You're foolish to work so hard. You have plenty to do when you do the cooking. Get a girl to do the dinner-room work—there are lots of girls who would be glad of a job, for the summer anyway."

"No, I've three girls. They get lonely. It's too far from Jasper Avenue and the Allen Theatre. I don't know what's got into the girls now—they won't work—all they want to do is to trip. They can't cook—they won't learn. They'll depend on canned stuff when they get married, and starve if they lose their can openers. No I won't have another."

"But there's a lot of good girls, smart and tidy and all that," protested Jack.

DODD'S KIDNEY PILLS

ALL KIDNEY DISORDERS
RHEUMATISM
GRAVEL
DIABETES
MIGRAINE
HEADACHE
BACKACHE
NEURALGIA
OBST. THE PAIN

"Yes, maybe, but where could I get one of them?—You tell me and I'll tell you."

This conversation took place at noon. On the four o'clock train came Helmi.

The sun poured down with a pitiless glare on the confining ugliness of the little boxlike houses. The kindly white snow which had covered the littered backyards, was gone, and now there came in full the piles of cans, discarded clothing, old boxes, old boots, which the snow had merely hidden. Water stood in puddles on the one little street where the general store, the hotel, postoffice, mine office, and boarding-house, sat side by side all looking at the station, which because it belonged to a system and was not dependent on local caprice, had walls of stone gray and a red roof. So far as could be seen, not another tin of paint had ever gained a foothold in Eagle Mines.

(To Be Continued.)

THE ONLY MEDICINE
BABY HAS HAD

Is What Thousands Of Mothers Say Of Baby's Own Tablets

Once a mother has used Baby's Own Tablets for her little one she will use nothing else. Experience teaches her that they are without an equal for relieving baby of any of the many minor ailments which afflict him at one time or another. Baby's Own Tablets never fail to be of benefit—they cannot possibly do harm as they are guaranteed to be free from all injurious drugs.

Concerning Baby's Own Tablets Mrs. Russell Hill, Norwood, Ont., says: "I shall always have a good word to say for Baby's Own Tablets. I have given them to our baby girl. In fact the Baby's Own Tablets she has ever had and I am proud to say that she took second prize at our baby show. She is eleven months old and weighs 22 pounds. No mother whose child is peevish or ailing will make a mistake in giving Baby's Own Tablets."

Baby's Own Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

Now the God of hope fill you with all joy and peace in believing, that ye may abound in hope, like Romans xv. 13. Ah! yet when all is thought and said, The heart still overrules the head; Still what we hope we must believe, And what is given us receive;

Still still believe, for still we hope That in a world of hope we live. What here is faithfully begun Will be completed, not undone.

—Arthur Hugh Clough.

All which happens through the world, happens through hope. No husbandman would sow a grain of corn if he did not hope for the time of spring up and bring forth the ear. How much more we are helped on by hope in the way to eternal life.

—Martin Luther.

Simple and Sure. — Dr. Thomas' Electric Oil is so simple in application that child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing apply in the direction of the arteries and unobstructed by young or old.

And This Is Law—

Connecticut has a windshield wiper law which says all motor vehicles except motorcycles must have windshield wipers. Albert Rubenstein had a truck but no windshield wiper. As a matter of fact there was no windshield on the truck to be wiped. There was the windshieldless truck and there was the law. The law won. "Five dollars and costs," said Judge Deming in town court. Albert is in the market for a wiper.

Cheapest Of All Oils.—Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price no one should be without a bottle of it.

He: "I had a wonderful time at your party last night."

She: "Why, I had no party last night."

He: "That's so well, believe me, I was at somebody's party."

Industry is born in a man, but laziness is acquired.

Minard's Liniment for Neuritis

Christmas
draws near!

Silk Manufacturing
One of the largest French silk manufacturing firms will establish a factory in Canada. The plant will likely be located in the St. Catharines district, Ontario. There will be an initial installation of from 30 to 35 looms and 40 hands will be employed.

WAS SO NERVOUS
and SHORT OF BREATH
COULD HARDLY SLEEP

Mrs. Louise Baglin, Golden Lake, Ont., writes: "For several years I was greatly troubled with my heart. I was so nervous and short of breath I could hardly sleep at night, and if I did sleep for a while I had bad dreams."

"I managed to keep at my work, somehow, until I began to have dizzy spells which got so bad I had to give up. I used many kinds of medicine, but found no help until I got a box of

After the first box I found a great change, and after two boxes I was as well as I could be."

"I told my mother, who had chinking sensations, about them and they helped her greatly."
Price 50c. a box at all druggists and dealers, or mail on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The custom of calling Boston the Hub comes from a saying by Oliver Wendell Holmes in his "Autocrat of the Breakfast Table" that "Boston Statehouse is the hub of the solar system." The saying was corrupted to "hub of the universe."

Minard's Liniment for Chiblainis.

"S" is a dangerous letter in a country because it turns words into swords.

ECZEMA BROKE OUT OVER BODY

Could Not Do Any Work. Healed by Cuticura.

"Eczema broke out over my hands, arms, feet and limbs and on my body. It appeared in pimples that itched something awful, and when I scratched, it caused the trouble to spread. My arms and limbs were covered with sore eruptions. Whenever my clothing rubbed it it would burn like fire. I could not do any work."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. I purchased one box of Soap and one box of Ointment and within a month I was healed." (Signed) F. W. Simmons, Tremont, Ala., Oct. 4, 1925.

Rely on Cuticura Soap and Ointment to keep your skin clear.

Sample Size Free by Mail. Address: Cuticura, P.O. Box 103, Lowell, Mass.

Small Size 25c. Full Size 50c. Cuticura Soap 25c.

SICK ABED
EIGHT MONTHS

After Taking Lydia E. Pinkham's Vegetable Compound Could Do All Her Work and Gained in Weight

Melfort, Saskatchewan.—"I had inward troubles, headaches and severe pains in my back and sides. I was so sick generally that I could not sit up and I was in bed most of the time for eight months. As a matter of fact I could not come to visit and help me as I was unable to attend to my baby and could not do my work. She told me to try Lydia E. Pinkham's Vegetable Compound, and after taking two bottles I could get up and dress myself. I also took Lydia E. Pinkham's Blood Purifier. When I first took the medicine I only weighed seventy-eight pounds. Now I weigh twice as much. If I get out of sorts or weary and can't sleep, I always take another bottle of the Vegetable Compound. It finds wonderfully good for female troubles, and have recommended it to my neighbors. I will be only too glad to answer any letters I receive asking about it." — Mrs. WILLIAM RITCHIE, Box 436, Melfort, Saskatchewan.

Luxuries Once But Necessities Now

PRACTICALLY any Canadian citizen may own today an automobile possessing elements of beauty, style, comfort and efficiency which no amount of wealth could have commanded a dozen years ago.

For the automobile industry has outgrown its original function as a supplier of transportation, and has in an amazingly short time, brought about the refinements which are exemplified in the present-day General Motors car.

Since its foundations first were laid sixty years ago, this institution has believed that every Canadian has a right to the best his country produces, has a right to satisfy his acute

of beauty, his desire for comfort, his need for dependability.

General Motors has at its command the master minds of the industry. It has the finest automotive research laboratories and the greatest automobile proving grounds in the world, wherein have been pioneered and developed some of the industry's most revolutionary advances.

And General Motors has used its prosperity and success unstintingly in improving the quality and increasing the value of its products.

It is thus that General Motors of Canada has played its part in translating once-inconceivable luxury into terms of every-day necessity.

SUMMERFIELD & MAYER.

Duffield News.

Mr Ronald Faulks is holding a clearance sale of his stock and machinery, at his farm, north of Duffield, on Thursday, Dec. 3. Mr Faulks intends engaging in business at Duffield, and has erected a residence in the town.

The new hotel here is expected to be open for business at the new year, with Mr Collingridge as proprietor.

The hockey club has been reorganised, and the players are looking forward to a very successful season.

Moose Story from Gol. Spike

A moose story comes from Golden Spike district which leads one to believe that Mr Louie Saengerbund, the well-known hog raiser, was the victim of a cruel joke.

Louie, who is a big game hunter of no mean ability and has been in the habit of getting his annual moose, has been blowing for some time about the immense size of his prize boar which has been running at large for some time.

So the other evening at dusk, when a neighbor phoned to him that a moose had been seen in the brush about half a mile from Louie's house, Louie promptly shouldered his rifle and sallied forth.

Coming down to the place indicated, Louie noticed a moving object, and, bing! bang! bang! gave it all the rifle had.

On going over to his quarry to count the points on the prongs, he found to his dismay, instead of a nice fat moose, it was Peter IL, his registered gentleman pig.

On Preparing Pelts.

A pamphlet entitled "The Preparation of Pelts for the Market" has been prepared by the Department of the Interior, giving full directions for the proper handling of pelts to ensure to the trapper the best market prices. Copies may be obtained, free, from the Director, Natural Resources Intelligence Service, Dept. of the Interior, Ottawa.

Wheat Pool's Large Acreage.

Many contracts covering large acreages are being received by the Wheat Pool. J. J. Bowlen of Calgary, who owns 9 quarter sections in Southern Alberta, has signed a contract; also Nat Bryant of Hussar has placed his six section under a Pool contract.

Stony Plain and District.

30 DAYS TO CHRISTMAS.

Mr Nette, the piano tuner, moved in to Edmonton, this week, with his outfit.

The local Brooks elevator is making record shipments of grain this season, having shipped out four cars last week, and four more are being billed out this week.

It is reported that Karl Geistlinger has sold his farm at Golden Spike.

The dance on Saturday evening at Manly Hall was well patronised, and the usual good orchestra was present.

There will be a skating party tomorrow (Friday) at Muir Lake, to be followed by a dance in the schoolhouse.

The postoffice at Holborn was moved, on the 15th, to a new location at the Michel Ranch, on the Scott road. The mail days have been changed, and the mail driver now starts from Stony Plain on Tuesdays and Friday afternoons. A number of the patrons are complaining of the inconvenience of the new P.O. location, and are agitating for a rural route delivery.

The 1928 annual convention of the U.F.A. will be held in Calgary Jan. 17-20. Resolutions to be submitted to the convention are already coming in to the U.F.A. office at Calgary.
